

The T-Bench, part of the new Inside-Outside multi-purpose furniture collection, it is a product that lends itself to any use whether for formal meeting or the everyday café, all the while protecting itself from biodegradation*. The tops of the T-Bench are constructed from birch ply with polypropylene protected surfaces, and the legs are constructed in steel, protected with a special primer and powder-coating process.

T-Bench surfaces are available in Light Grey and White.

DESIGNER	Jennifer Newman
DIMENSIONS	180 x 30 x 45 cm h

OPTIONS	Legs any RAL colour

* WISA® - Multiwall Properties: High quality, robust, hygienic birch plywood with slight 'eggshell type' textured polypropylene laminate on both sides. Suitable for a wide range of demanding applications including structural end uses. Does not 'chip' or breakout, plus also has good UV resistance and is easy to clean. Suitable for both exterior and interior applications. Edges are sealed with acrylic resin paint. FSC certified from sustainable European Forests.
